**Annual report:
momondo continues growth**

Travel search site momondo ended 2014 with a revenue increase of 76 percent - more than doubling gross profits. The organisation is delivering on its ambitious three-year growth strategy launched at the beginning of 2014.

momondo A/S is undergoing an ambitious international expansion. Today momondo operates in more than 30 markets worldwide. The company added 11 new markets in 2014, where revenue grew by 76 percent.

Annual report lives up to expectations

The international growth also positively influenced gross profits, which went up from 19 million DKK in 2013 to more than 50 million DKK in 2014. Managing Director at momondo, Pia Vemmelund heralds this positive trajectory:

"We are very happy and proud of our results. Our philosophy is if you don't aim high you don't succeed. We are following our strategy as planned and expect further investments in marketing and product development will bring similar growth figures in 2015."

In 2014, the headcount at momondo's headquarters in Copenhagen greatly increased, so that more than 25 nationalities are now employed with more than 100 employees in total.
